Melinda A. Costa, M.D.
ADULT & PEDIATRIC, CRANIOFACIAL, & PLASTIC SURGEON

ACTUAL PATIENT

MELINDA A. COSTA, M.D.

Dr. Costa, is a Diplomate of the American Board of Plastic Surgery and one of a handful of double-fellowship trained craniofacial plastic surgeons in the United States, specializing in the most technically demanding facial surgery techniques. Possessing a deft hand, an artistic eye, and years of rigorous surgical training experience, Dr. Costa provides outcomes to correct, restore, and enhance the face, breasts, and body.

Patient-centric and a doctor first-and-foremost, she works closely and attentively with adult and pediatric patients to understand their individual goals before creating a customized procedure plan that maximizes positive health and aesthetic results.

She holds two degrees from the University of Pennsylvania: a BS in Biological Basis of Behavior with a minor in Fine Arts as well as an MD. Dr. Costa completed her residency in plastic surgery in 2012 at University of Southern California and held prestigious fellowships at USC/Shriners Hospital in Los Angeles (Global Health Pediatric Plastic Surgery) and Indiana University School of Medicine (Pediatric Plastic and Craniofacial Surgery).

Mandibuloplasty

Rhinoplasty
(Nose Reshaping)

Tracheal Shave
(Adam's Apple Reduction)

Dr. Costa did my facial surgery in December. She is the absolute best to work with. My results are very natural looking and subtle, but so great! I will definitely be going back to her again.

Olivia N.

I've gotten so many compliments on my face by friends, family and even strangers. I have a confidence now that I never thought I would ever achieve. Would HIGHLY recommend Dr. Costa to anyone, she truly is an artist.

Pia C.

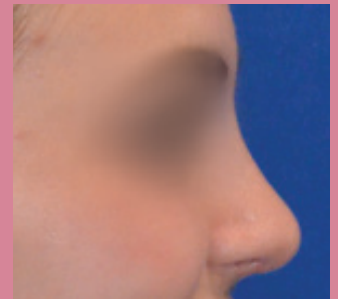

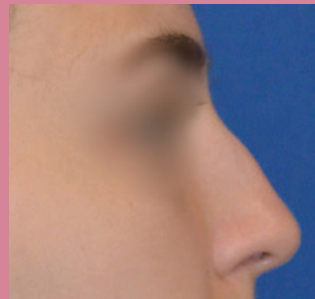

Dr. Costa is an absolute artist and true professional in facial feminization surgery, from the initial consultation to the final results her care and attention to detail are beyond exceptional.

My FFS are beyond what I could have hoped and the results has been life changing both physically and emotionally. If you are considering FFS or any surgery I wholeheartedly recommend Dr. Costa services, her expertise and compassion make her the best in the field.

Valeria H.
